Make and keep up with the software documentation

be in charge of looking after, growing, and scaling our website.

Keep up with the latest developments in technology and industry trends, and incorporate them into your work.

Bondstein© Technologies Ltd.

Web Engineer

June 2017 - July 2018 (1 year 2 months)

Dhaka, Bangladesh

My position at Bondstein Technologies was as a web engineer. From planning and design to testing and deployment, I am actively involved in every phase of the software development cycle. I never have the same task on any given day; it could be algorithm analysis, code modification, bug resolving, concept generation, or system integration.
